Carrer Objective

Frontend Web Developer with experience in JavaScript, React.js, Next.js, UI/UX design, and CMS. Skilled at writing clean, maintainable code and building user-friendly websites, with hands-on experience gained through internships and collaborative projects since 2023.

Work Experience

Frontend Developer (Internship)

Alpha X Training Center
July 2023 - August 2023

- Worked on Track X, a static music listening platform website.
- Built CMS tables and implemented data for content management.
- Contributed to UI/UX design improvements after completing CMS tasks.
- Used React.js to develop responsive frontend components under mentor guidance.

Web Developer & Video Editor

RI Institute & ATS

<https://www.advtechsolution-mm.com>

<https://ri-institute.com/#>

- Collaborated with a senior developer to build and update static websites for RI Institute and ATS.
- Worked on UI/UX design, homepage layout, and login/register pages for both websites.
- Updated the RI Institute website with updated and improved UI/UX.
- Edited online course videos recorded via Zoom for RI Institute's e-learning platform.

Project Experience

AAC - Web Developer

<https://sneakhype247.wixstudio.com/sneakhype>

Developed and deployed a responsive e-commerce website using WixStudio, improving navigation and user experience to drive customer engagement.

AAC - Project Manager

Led a team of 10 to organize a campus-wide IT awareness event; designed promotional materials and managed the Cybersecurity Awareness booth, engaging over 200 participants.
